The Arizona Technology Council’s Preferred Business Partners program provides significant discounts on the products and services technology businesses need most. Don’t waste your employees’ valuable time collecting quotes around town—we’ve already done that for you. Partner companies participating in the program are active Council members committed to providing high-quality products and services with highly reduced prices solely for AZTC members.

The AZTC Preferred Business Partners serve as an integral part of the Arizona Technology Council to provide needed services for members to run their business. In addition, the Preferred Business Partners create long-standing networking relationships through its committee to promote each other with business connections.
