Why the Technology Industry is Demanding Health Care

Arizona has emerged as a national leader in innovation, R&D investment, and talent development with a diverse range of technology sectors.

The Council's Commitment

The Council understands the challenges, barriers and impediments that many startups and small businesses face. That is exactly the reason why this new AHP targets member employers with fewer than 100 employees. When multiple small businesses join together as one association, they can take advantage of affordable health plans that can help attract and retain top talent.
