**VR Studies Provide 2x The Pain Relief of Morphine**

- **Virtual Reality Pain Reduction (Snow World) University of Washington.**  
 Results: **2x as effective as morphine.** VR Alone had a 70% Pain Reduction compared to Placebo (P<0.001). Morphine alone had a 30-35% reduction in pain. (<http://www.hitl.washington.edu/projects/vrpain/>)

\*VR achieved 2.5x greater pain reduction than regular video games (nintendo).

\*fMRI brain scans show significant reductions in pain-related brain activity
