

April 2020

## An affordable healthcare product bundle for your clients

The Arizona Technology Council is proud to serve our community with a turn-key health insurance program designed to make your role easier and delight your clients. We have worked tirelessly to provide an affordable product bundle to Arizona employers. We invite you to become more familiar with our product bundle so you can provide your clients with this exciting new healthcare-plan choice.

We have created a [Broker/General Agent Onboarding Guide](#) that provides additional information on the program including how to quote and the benefits of the program.

With the Council's association health plan (AHP), your clients receive:

- 15 medical plan options through BCBS of Arizona available on four networks.
- \$25,000 of life insurance at a low cost.
- Wellspring Employee Assistance Program (EAP) at no additional cost.
- HSA/FSA banking that has no setup or monthly admin fees through Navia Benefit Solutions.
- Administrative features like consolidated billing, COBRA administration and an online platform for ease of maintaining eligibility and billing.

The Arizona Technology Council continues to stand by the community through this difficult time, knowing that we will come out stronger on the other side. To keep our community safe, we will be offering Zoom educational sessions from our home office for those that would like to participate and learn more about what the Arizona Technology Council's AHP can do for your clients.

Stay tuned for registration information next month and continue to quote our program today!

Quotes and general inquiries can be sent to [AZTC@dimarinc.com](mailto:AZTC@dimarinc.com).
